Contents:

Switch Warning:

Never use the product if you are wet or in or around water or moisture to avoid electric shock.

Stop using the product immediately if the following situations occur:

- If water or other liquid spills on the product or the switch.
- If the unit is broken or the machine parts are exposed.
- If you feel any discomfort or pain while using the product.
- If there are any unusual smells coming from the massage cushion.
- If the power supply suddenly shuts off other than the normal timer shut off.
- If there is an electrical storm occurring.

Product maintenance:

Please do not disassemble the inner machine parts as this may damage the product and will void your warranty.

Power plug and electrical cord:

Check the power plug and the electrical cord to make sure they conform to the designated voltage.

Do not pull or insert the electrical cord with wet hands to avoid getting an electric shock.

Grip the power plug when you pull the plug from the wall socket.

Please do not put any pressure on the electrical cord or plug. Inspect the electrical cord regularly to ensure that the cord is not damaged in any way.
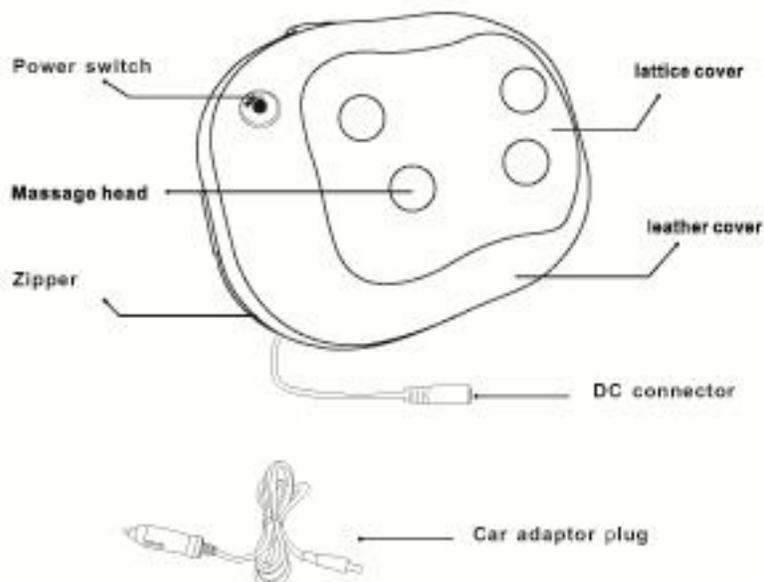

For your safety, the product has an over-heating shut off protector. If the unit overheats, then it will automatically shut off.

If the electrical cord is damaged, please return the product to an authorized service center for repair.

The product will give out heat so if someone is sensitive to high temperature, please be cautious when using the product.
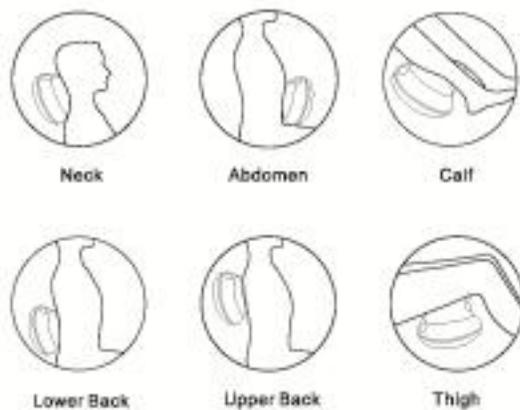

Massager part names and functions:

Operation of the unit:
